<b>Experiment</b>	4
<b>Aim</b>	Develop an app for TPO Office at SPIT
<b>Objective</b>	<ul style="list-style-type: none"><li>• To Create TPO App using UI Component</li><li>• To Develop SideDrawer Navigation</li><li>• To Use 60-30-10 rule</li></ul>
<b>Name</b>	Atharva Vasant Angre
<b>UCID</b>	2024510001
<b>Class</b>	FYMCA
<b>Batch</b>	A
<b>Date of Submission</b>	03.03.25

<b>Technology used</b>	<b>Flutter</b>
<b>Task</b>	<p>Develop an app for TPO with the following requirement (Use side navigation drawer) :</p> <ol style="list-style-type: none"><li>1. Registration Form (Name, E-mail id, Contact, Roll no, HSC (Which College, Year of Passing, total, out of, should calculate percentage), SSC marks (Which College, Year of Passing, total, out of, should calculate percentage), Marks in sem 1-5 (CGPA and Percentage), upload Resume, Any Additional Courses).</li><li>2. User should be able to view the uploaded Resume. (optional)</li><li>3. Company details should be visible to the user. (Name of the company, Location, Range of the salary be given for internship/Placement, Short Profile).</li><li>4. Student should be able to view their own details.</li></ol>
<b>Code with proper label</b>	<pre><b>Main.dart</b> import 'package:flutter/material.dart'; import 'package:get/get.dart';  import 'screens/mainScreen.dart';  void main() {   runApp(const MyApp()); }  class MyApp extends StatelessWidget {   const MyApp({super.key});    // This widget is the root of your application.   @override   Widget build(BuildContext context) {     return GetMaterialApp(       debugShowCheckedModeBanner: false,       title: 'Flutter Demo',       theme: ThemeData(         primaryColor: Colors.white,         useMaterial3: true,       ),</pre>

home: mainScreen(),

```
);  
}  
}
```

<b>Question and Answers</b>	<p>Answer the following Questions:</p> <ol style="list-style-type: none"><li>1. How to create SideDrawer Navigation?</li></ol> <p>It is implemented using the Drawer widget inside the Scaffold. The CommonDrawer contains a ListView with ListTile items for navigation, using Get.to() for page transitions.</p> <ol style="list-style-type: none"><li>2. How did you use 60-30-10 rule in your application?</li></ol> <p>The primary color Color(0xff1976D2) (60%) is used for the AppBar and Drawer, white (30%) for text, and Color(0xffFF6600) (10%) for Salary.</p> <ol style="list-style-type: none"><li>3. Which new elements did you use for creating UI components?</li></ol> <p>PDFView</p>
<b>Conclusion</b>	<p>The TPO app will help students register their academic details, calculate percentages, and upload resumes. It will have a side navigation drawer for easy access to features. Students can view their details, uploaded resumes, and company information like name, location, and salary range. This app will make the placement process simple and accessible for students and coordinators.</p>
