  Continuing our journey to push the needle of Nike innovation, the ISPA Link Axis
is an exploration into circular design with 100%

    recycled materials: "Every part can be recycled", says the ISPA team. "It
represents progress over perfection—creating a product

   with a second life in mind". Guided by the principles of modularity and waste
reduction, the design uses interlocking components

    of recycled Flyknit and plastic, as few materials as possible and zero glue.
Experience the future of design in the present. And

Continuing our journey to push the needle of Nike innovation, the ISPA Link Axis is an exploration into circular design with 100% recycled materials: "Every part can be recycled", says the ISPA team. "It represents progress over perfection—creating a product with a second life in mind". Guided by the principles of modularity and waste reduction, the design uses interlocking components of recycled Flyknit and plastic, as few materials as possible and zero glue. Experience the future of design in the present. And if or when you want to help extend the shoes' life, simply drop 'em off at a participating Nike store for recycling.
